1. Platform Overview

pickku is a B2B2C mission-based reward campaign platform. Companies create campaigns with a series of tasks (missions), and users complete those tasks to earn points and rewards.

Role	Description
Company (Manager)	Creates and manages reward campaigns. Sets missions, prizes, and raffle rules.
User (Participant)	Discovers campaigns, completes missions, and earns points or crypto rewards.
Admin	Platform administrator who approves campaigns and manages all users.

How It Works — The Big Picture

1. A Company creates a campaign and defines missions (e.g. visit a link, answer a quiz, join a Discord server).
2. The campaign goes live after Admin approval.
3. Users browse active campaigns, complete missions, and submit their answers.
4. When the campaign ends, winners are selected by raffle (equal or weighted) and receive points or crypto rewards.
5. The entire process — from mission verification to prize distribution — is fully automated.

Supported Languages

pickku is available in English, Korean (한국어), and Portuguese (Português). You can switch the language from the top navigation bar at any time.

Supported Reward Types

Currency	Description
POINT	Platform points — used for rankings and future redemption.
USDT	USD Tether stablecoin — transferred to your wallet address.
BRL	Brazilian Real — transferred via designated payment method.
METAQ	METAQ token — transferred to your blockchain wallet address.

2. Getting Started — Account & Profile Setup

To participate in any campaign or create campaigns, you must first register an account and complete your profile.

2.1 Creating an Account

- Email & Password (minimum 6 characters)
- Google Account (one-click OAuth sign-in)

NOTE After registering with Google, you will be taken directly to the Profile Setup page.

2.2 Completing Your Profile (Required)

IMPORTANT You must complete your profile before you can participate in any campaign. Until your profile is complete, the platform will automatically redirect you to the Account Setup page.

Fill in all required fields on the Account Setup page:

Field	Notes
Nickname	Your display name on the platform.
Wallet Address	Your blockchain wallet address (e.g. 0x1234...). Required for receiving crypto rewards.
Date of Birth	Used for age-based analytics. Format: YYYY-MM-DD.
Gender	Male or Female.
Country	Select your country from the dropdown (40+ countries available).

NOTE Your wallet address must be a valid format starting with 0x. Make sure it is correct — rewards are sent directly to this address.

Once all fields are saved, you will be redirected to the Home page and can start exploring campaigns.

2.3 Logging In

On the Login page, enter your email and password, or use the Sign in with Google button. After login, you will be taken to the Home page.

Your login token is stored in your browser. You will remain logged in until you click Logout from the navigation menu.

2.4 Navigation Overview

Menu Item	Description
Home	Platform home page with featured campaigns and a quick-start guide.
Campaigns	Full list of active, upcoming, and past campaigns.
My Page	Your profile, SNS account links, and activity history.
Ops	Campaign management console (visible to Managers only).
Admin	Admin dashboard (visible to Admins only).
Logout	Sign out of your account.

3. For Participants (Users)

This chapter explains how to find campaigns, complete missions, and claim your rewards.

3.1 Finding & Joining Campaigns

Click Campaigns in the top navigation bar to see all available campaigns.

Browsing the Campaign List

Each campaign card shows the following information:

- Campaign title and company name / logo
- Status badge — Active / Ending Soon / Upcoming / Closed
- Number of missions
- Number of current participants
- Reward per winner (points or currency)
- Campaign end date

Filtering and Sorting

Option	Description
Search	Type keywords to search by campaign title or description.
All Status	Show all campaigns regardless of status.
Active	Show only currently active campaigns.
Upcoming	Show campaigns that have not yet started.
Closed	Show completed campaigns.
Latest	Sort by most recently created.
Ending Soon	Sort by campaigns closest to their end date.

Campaign Status Explained

Status	Meaning
Active	The campaign is live. You can join and complete missions right now.
Ending Soon	The campaign ends within 3 days. Complete your missions quickly!
Upcoming	The campaign has not started yet. Check back later.
Closed	The campaign has ended. No new submissions accepted.

Campaign Detail Page

Click View Detail on any campaign card to open the campaign detail page. Here you will find:

- Campaign title, company logo, and full description
- Total prize pool and reward per winner
- Campaign duration (start and end dates)
- Mission list — all tasks you need to complete
- Real-time participant list (users who completed all missions)
- Winners section (shown after the raffle is run)

NOTE You must be logged in to submit any mission. If you are not logged in, you will be redirected to the Login page.

3.2 Completing Missions

Each campaign contains one or more missions. Complete every mission in a campaign to be eligible for the raffle.

IMPORTANT You can only submit each mission once. Make sure your answer is correct before clicking 'Complete & Submit'.

Mission Status Indicators

Status	Meaning
Not Started	You have not attempted this mission yet.
Pending	Your submission is waiting for manager review.
Approved	Your submission was accepted. Mission complete!
Rejected	Your submission was rejected. Check the reason and resubmit if possible.

Mission Types — Complete Guide

pickku supports 13 different mission types across 5 categories. Read the instructions for each type carefully.

General Missions

Icon	Mission Type	What Users Must Do	Verification Method
[Link]	Link Visit	Click 'Open Link' to visit the specified URL. Stay on the page for the required minimum time.	Server checks your recorded dwell time against the minimum required seconds.
[Code]	Code Input	Enter the exact code provided by the company (e.g. a promo code or event code).	Server compares your input with the correct code (case-insensitive).

Icon	Mission Type	What Users Must Do	Verification Method
[Quiz]	Quiz	Read the question and select the correct answer from the multiple-choice options.	Server checks whether your selected option matches the correct answer index.
[Survey]	Survey	Answer all questions in the survey. Questions may be open-ended (text) or multiple-choice.	Server checks that all questions have been answered.
[Check]	Check-in	Read the mission description and click the confirmation checkbox ('I Understand').	Automatically approved when you confirm the checkbox.
[File]	File Upload	Paste the URL of your uploaded file (e.g. a Google Drive or Dropbox link).	Server checks that the URL field is not empty.

YouTube Missions -- Requires YouTube account linking

NOTE You must link your YouTube (Google) account in My Page → SNS Account Linking before attempting YouTube missions. See Section 3.3 for details.

Icon	Mission Type	What Users Must Do	Verification Method
[Watch]	YouTube Watch	Click 'Open Video' to watch the specified YouTube video. Watch until the progress bar reaches the required time.	Server verifies via YouTube API that you have watched at least the required number of seconds.
[Subscribe]	YouTube Subscribe	Click 'Subscribe' to visit the channel, then subscribe. Come back and click 'Verify'.	Server calls YouTube API to confirm your account is subscribed to the channel.
[Like]	YouTube Like	Click 'Like Video' to open the video, then like it. Come back and click 'Verify'.	Server calls YouTube API to confirm your account has liked the video.

Telegram Missions -- Requires Telegram account linking

NOTE You must link your Telegram account in My Page → SNS Account Linking before attempting Telegram missions. See Section 3.3 for details.

Icon	Mission Type	What Users Must Do	Verification Method
[Channel]	Telegram Channel	Click 'Join Channel' to open the Telegram channel link. Join the channel in your Telegram app.	Telegram Bot API verifies that your account has joined the specified channel.
[Group]	Telegram Group	Click 'Join Group' to open the Telegram group link. Join the group in your Telegram app.	Telegram Bot API verifies that your account is a member of the specified group.

Discord Missions -- Requires Discord account linking

NOTE You must link your Discord account in My Page → SNS Account Linking before attempting Discord missions. See Section 3.3 for details.

Icon	Mission Type	What Users Must Do	Verification Method
[Discord]	Discord Join	Click 'Join Server' to open the Discord invite link. Accept the invite in your Discord app or browser.	Discord Bot API verifies that your Discord account is a member of the specified server.

Instagram Missions -- Manual Verification

IMPORTANT Instagram missions are manually reviewed by the campaign manager. There is no automatic API verification.

Icon	Mission Type	What Users Must Do	Verification Method
[Follow]	Instagram Follow	Click 'Follow' to visit the Instagram profile. Follow the account in Instagram.	The campaign manager manually reviews and approves your submission.
[Like]	Instagram Like	Click 'Like Post' to visit the Instagram post. Like the post in Instagram.	The campaign manager manually reviews and approves your submission.

Step-by-Step: Submitting a Mission

Here is the general process for completing and submitting any mission:

1. **Open the campaign detail page** — Navigate to the campaign and scroll to the mission list.
2. **Read the mission instructions** — Each mission card shows the type, title, and description.
3. **Perform the required action** — Depending on the type: visit a link, answer a question, join a group, etc.
4. **Provide your answer (if needed)** — For Code, Quiz, Survey, or File Upload missions, type or select your answer in the input field.
5. **Click 'Complete & Submit'** — Press the button to send your submission to the server.
6. **Wait for verification** — The button shows 'Verifying...' while the server checks your submission.
7. **Check the result** — If approved, the mission card shows Approved. If rejected, it shows the reason.

3.3 SNS Account Linking

To complete YouTube, Telegram, or Discord missions, you must first link your social media accounts. This is done from My Page → SNS Account Linking section.

Linking Telegram

Step 1 Start the linking process

- Go to My Page from the top navigation bar.
- Scroll to the SNS Account Linking section.
- Click the Link button next to Telegram.

Step 2 Authorize via Telegram Bot

- A new window opens with the pickku Telegram Bot.
- In Telegram, click the Start button to begin authorization.
- The bot will register your Telegram account.

Step 3 Confirmation

- The page automatically detects the link (polls every 3 seconds for up to 2 minutes).
- Your Telegram handle appears under the Telegram section.
- You can now complete Telegram missions.

NOTE Keep the Telegram Bot window open until you see your handle appear on My Page.

Linking Discord

Step 1 Start the linking process

- Go to My Page → SNS Account Linking.
- Click the Link button next to Discord.
- You are redirected to the Discord OAuth authorization page.

Step 2 Authorize on Discord

- Log in to Discord if prompted.
- Click Authorize to grant pickku permission to read your account information.

Step 3 Return to pickku

- You are automatically redirected back to My Page.
- Your Discord handle appears under the Discord section.
- You can now complete Discord missions.

Linking YouTube (Google Account)

Step 1 Start the linking process

- Go to My Page → SNS Account Linking.
- Click the Link button next to YouTube.
- You are redirected to Google's OAuth consent screen.

Step 2 Select your Google account

- Choose the Google account that has the YouTube channel you want to use.
- Grant pickku permission to read your subscriptions and activity.

Step 3 Confirmation

- You are redirected back to My Page.
- Your YouTube handle appears under the YouTube section.
- You can now complete YouTube Subscribe, Like, and Watch missions.

IMPORTANT Make sure to select the correct Google account — your YouTube activity (subscriptions, likes) will be verified against this account.

Unlinking an SNS Account

To unlink any connected account, click the Unlink button next to the account on My Page. You will be asked to confirm before the account is removed.

3.4 My Page — Profile & Activity

Access My Page from the top navigation bar to manage your profile and view your activity.

Profile Tab

Setting	Description
Nickname	Update your display name.
Wallet Address	Update your blockchain wallet for receiving rewards.
Date of Birth	Update your birth date.
Gender	Update your gender.
Country	Update your country.
Profile Icon	Upload a profile photo (JPEG/PNG/GIF/WebP, up to 2 MB).
SNS Account Links	Link or unlink Telegram, Discord, and YouTube accounts.

Activity Tab

The Activity tab shows your campaign history, organized into three sub-tabs:

Sub-Tab	What Is Shown
Active	Campaigns you are currently participating in (at least one mission submitted).
Won	Campaigns where you were selected as a winner, including your rank and reward.
Closed	Campaigns that have ended, regardless of whether you won.

Deleting Your Account

IMPORTANT Deleting your account is permanent and cannot be undone. All your missions, points, and activity history will be erased.

To delete your account, scroll to the bottom of the Profile tab and click Delete Account. You will be asked to confirm before the account is removed.

4. For Companies (Campaign Managers)

This chapter explains how to create campaigns, configure missions, manage submissions, and run the winner raffle.

4.1 Getting the Manager Role

By default, new accounts have the User role. To create campaigns, your account must be upgraded to Manager. Contact the platform administrator and provide your registered email address.

Admin contact: [Insert admin contact email or form URL here]
Once upgraded, the Ops menu will appear in your navigation bar.

4.2 Creating a Campaign (Step-by-Step)

Click Ops in the navigation bar, then click New Campaign. The campaign creation wizard has three steps.

Step 1 Client & Campaign Info

- **Company Name** — The name of your organization (displayed on the campaign card).
- **Company Logo** — Upload your logo (JPEG/PNG/GIF/WebP/SVG, max 2 MB). Appears on the campaign page.
- **Campaign Title** — A clear, descriptive title for your campaign (required).
- **Description** — Use the rich text editor to write a detailed campaign description. You can add formatting, links, and images.

Step 2 Logistics & Rewards

- **Number of Winners** — How many users will win a prize (minimum: 1).
- **Raffle Mode** — Choose how winners are selected (see Raffle Modes below).
- **Auto Approve** — If checked, valid submissions are automatically approved. If unchecked, you must review each submission manually.
- **Start Date / End Date** — Optional. If set, the campaign becomes active at the start date and automatically closes at the end date. If left blank, you control activation and closure manually.
- **Rewards** — Add one or more reward entries. Each entry has an Amount and a Currency (POINT / USDT / BRL / METAQ). The platform shows the estimated reward per winner automatically.

Raffle Modes

Mode	How Winners Are Selected
Simple (Equal Chance)	All users who complete every mission have an equal chance of

Mode	How Winners Are Selected
	winning. The raffle picks randomly from all eligible participants.
Weighted (By Missions)	Users earn one raffle ticket for each mission they complete. Completing more missions gives a proportionally higher chance of winning. This mode only applies if you have multiple missions.

Step 3 Mission Setup

- Click + Add Mission to add a mission to your campaign.
- Select the mission type from the categorized grid (see Section 4.3 for details on each type).
- Fill in the required fields for the selected mission type.
- Add as many missions as needed. Drag to reorder them if required.
- At least one mission is required before saving.

NOTE You can save the campaign at any time during Step 3. If you are a Manager, the campaign is saved as a Draft and must be approved by an Admin before it goes live. If you are an Admin, the campaign is immediately set to Active.

Campaign Status Flow

Status	Description
Draft	Saved but not yet submitted for review. Visible only to you.
Pending Admin	Submitted for Admin review. Visible only to Admins and you.
Active	Approved and live. Users can join and complete missions.
Closed	Manually closed by you or Admin. No new submissions accepted.
Drawn	The raffle has been run. Winners have been selected and rewarded.

4.3 Mission Configuration Guide

This section provides detailed instructions for configuring each of the 13 mission types.

General Missions

Link Visit

Require users to visit a URL and stay for a minimum amount of time.

Field	Description
Mission Title	Displayed on the mission card (e.g. 'Visit our product page').
URL	The full URL users must visit (e.g. https://www.yourwebsite.com).
Minimum Dwell Time (s)	Minimum time in seconds users must stay on the page (e.g. 30 for 30 seconds).

Code Input

Require users to enter a specific code (e.g. a promo code or event password).

Field	Description
Mission Title	Displayed on the mission card (e.g. 'Enter the event code').
Correct Code	The exact code users must enter. Verification is case-insensitive (e.g. 'LAUNCH2026').

Quiz

Present a multiple-choice question with a single correct answer.

Field	Description
Mission Title	Displayed on the mission card.
Quiz Question	The question to ask (e.g. 'What is the launch year of our product?').
Answer Options	Add 2 or more options. Click + Add Option to add more choices.
Correct Answer	Select the radio button next to the correct option.

Survey

Collect structured responses from users through a series of questions.

Field	Description
Mission Title	Displayed on the mission card.
Common Note (optional)	A note shown at the top of the survey (e.g. 'Please answer honestly').
Survey Link (optional)	An external link users can visit before answering (e.g. a product page).
Questions	Add as many questions as needed. Each question has a Type and a Question text.

Question types:

Question Type	Description
Text (Open-ended)	Users type a free-form text response.
Single Choice	Users select one option from a list. Add options with + Add Option.

Check-in

A simple confirmation mission. Users click a checkbox to confirm they have read or understood something.

Field	Description
Mission Title	Displayed on the mission card (e.g. 'Confirm you have read the terms').

NOTE Check-in missions are always automatically approved.

File Upload

Ask users to submit a file by providing a URL to an uploaded file.

Field	Description
Mission Title	Displayed on the mission card (e.g. 'Upload your receipt').
Upload Guide	Instructions for users explaining what file to upload and where (e.g. 'Upload a screenshot to Google Drive and paste the link').

NOTE Users paste a URL to their file (Google Drive, Dropbox, etc.). You review the file manually if Auto Approve is off.

YouTube Missions

YouTube missions require users to link their Google account. Set up the YouTube mission with the following fields.

YouTube Watch

Field	Description
Mission Title	Displayed on the mission card.
YouTube Video ID	The 11-character video ID from the YouTube URL (e.g. dQw4w9WgXcQ from youtube.com/watch?v=dQw4w9WgXcQ).
Required Watch Time (s)	Minimum seconds the user must watch (e.g. 60 for 1 minute).

YouTube Subscribe

Field	Description
Mission Title	Displayed on the mission card.
Channel URL	Full URL of your YouTube channel (e.g. https://www.youtube.com/@yourchannel).
Channel ID	Your YouTube channel ID starting with UC (e.g. UCxxxxxxxxxxxxxxxxxxxxxx). Found in YouTube Studio → Settings → Channel → Advanced.

YouTube Like

Field	Description
Mission Title	Displayed on the mission card.
Video URL	Full URL of the YouTube video to like.
Video ID	The 11-character video ID (same as in YouTube Watch above).

Telegram Missions

Telegram missions require users to link their Telegram account. The Telegram Bot automatically verifies membership.

Telegram Channel / Telegram Group	
Field	Description
Mission Title	Displayed on the mission card.
Telegram URL	The public invite link to your Telegram channel or group (e.g. https://t.me/yourchannel or https://t.me/yourgroup).

NOTE For private channels or groups, use the invite link format: <https://t.me/+xxxxxx>.

Discord Mission

Discord missions require users to link their Discord account. The Discord Bot verifies server membership.

Discord Join	
Field	Description
Mission Title	Displayed on the mission card.
Discord Invite URL	Your Discord server invite link (e.g. https://discord.gg/xxxxxx). Make sure the invite link does not expire.

IMPORTANT Discord invite links expire by default. Generate a permanent (never-expiring) invite link from your server settings.

Instagram Missions

Instagram missions are verified manually by you. There is no automatic API verification.

Instagram Follow / Instagram Like	
Field	Description
Mission Title	Displayed on the mission card.
Instagram Handle	(Follow) Your Instagram username without @ (e.g. yourbrand).
Post ID	(Like) The unique ID of the Instagram post to like. Found in the post URL: instagram.com/p/[POST_ID]/ .

NOTE Because Instagram missions are manually verified, Auto Approve should be turned OFF for these missions.

4.4 Managing Your Campaign

After creating a campaign, open the Ops Console (click Ops in the navigation) and select your campaign. The

management interface has four tabs:

Tab	What You Can Do
Compose	Edit your campaign info, logistics, and missions. Editing missions is only available while the campaign is in Draft or Pending Admin status.
Statistics	View submission counts per mission (approved / pending / rejected) and a summary of participant activity.
Participants	See a list of all participants, their email, wallet address, SNS handles, number of completed missions, and overall status.
Winners	View the list of winners after the raffle has been run.

NOTE You can export participant data as an Excel file from the Participants tab. Click the 'Export Data (Excel)' button.

4.5 Reviewing Submissions & Running the Draw

Reviewing Submissions (Manual Approval Mode)

If Auto Approve is turned OFF, you must review each mission submission individually.

In the Compose tab, scroll to the Mission Submissions section. For each submission, you can see:

- Submitter's email address
- Submitted content (answer, code, file URL, dwell time, etc.)
- Submission timestamp

Click Approve ☒ to accept the submission or Reject ☒ to decline it. Rejected users may resubmit if the campaign is still active.

NOTE For Quiz missions, the system shows whether the selected answer was correct or incorrect. For Survey missions, it shows the full response text.

Running the Raffle Draw

IMPORTANT The draw is final and cannot be undone. Make sure all submissions have been reviewed before running the draw.

You have two options for running the draw:

Method	How It Works
Automatic Draw	If your campaign has an End Date set, the platform automatically runs the draw within 1 minute of the campaign end time. No action needed from you.
Manual Draw	Click the 'Run Draw' button in the campaign management page at any time while the campaign is Active. Winners are selected immediately.

After the draw:

- Winners are listed in the Winners tab with their rank and reward amount.
- Point rewards are automatically added to winners' point balances.
- Crypto rewards (USDT, BRL, METAQ) must be transferred manually to the wallet addresses shown in the Winners list.
- The campaign status changes to Drawn.

4.6 Exporting Participant Data

You can export all participant data as an Excel file for your own analysis.

Go to the campaign management page → Participants tab → Click 'Export Data (Excel)'.

The export includes:

- User email address
- Wallet address
- SNS handles (Telegram, Discord, YouTube, Instagram)
- Gender, age group, country, and region
- Number of completed missions
- Submission status per mission
- Survey responses and other submitted content

5. Points & Rewards

5.1 How Points Work

Points are the primary in-platform currency. When you win a campaign with a POINT reward, the points are automatically added to your point balance.

You can see your current point balance on My Page. Points can accumulate over multiple campaigns.

IMPORTANT Points expire after 1 year from the date they are awarded. Make sure to use or redeem them before they expire.

5.2 How Crypto Rewards Work

For rewards in USDT, BRL, or METAQ, the company transfers the reward directly to the wallet address you registered in your profile.

Important: Make sure your wallet address is correct before participating in crypto-reward campaigns. Incorrectly entered wallet addresses cannot be recovered — rewards sent to wrong addresses are permanently lost.
Update your wallet address in My Page → Profile at any time before the raffle is run.

5.3 Raffle Fairness

All raffles are run by a server-side algorithm with the following guarantees:

- Simple Mode: every eligible user has a mathematically equal probability of winning.
- Weighted Mode: each mission completed earns one raffle ticket. The probability of winning is proportional to the number of tickets held.
- The raffle process is logged and the result is final.

5.4 Checking Your Wins

Visit My Page → Activity Tab → Won to see a list of all campaigns you have won, your rank, and the reward amount.

6. Frequently Asked Questions

Q I completed a mission but the status is still 'Pending'. What do I do?

A If the campaign has Auto Approve turned off, the manager must manually review your submission. Please wait for the manager to review your submission. If the campaign is over and your status is still Pending, contact the campaign manager.

Q Can I change my answer after submitting a mission?

A No. Each mission can only be submitted once. Make sure your answer is correct before clicking 'Complete & Submit'.

Q I clicked 'Verify' for a YouTube/Discord/Telegram mission but it says verification failed. What should I do?

A Make sure you have actually completed the required action (subscribed, joined, etc.) before clicking Verify. Also confirm that the correct social account is linked in My Page. If the issue persists, unlink and re-link your SNS account, then try again.

Q My wallet address is wrong. Can I update it?

A Yes. Go to My Page → Profile and update your wallet address. You must save the new address before the raffle is run — wallet addresses cannot be changed after you have won a campaign.

Q How do I know if I won?

A After the raffle is run, the Winners section appears on the campaign detail page. You will also see the win recorded in My Page → Activity → Won tab.

Q As a company, can I edit the campaign after it goes live?

A You can edit the campaign's basic info (title, description, company name, logo, raffle settings) at any time. However, missions cannot be added or modified once the campaign status is Active.

Q How long does it take for Admin to approve my campaign?

A Approval times depend on the administrator's schedule. Typically within 1–2 business days. You will see the campaign status change from 'Pending Admin' to 'Active' once approved.

Q What happens if nobody completes all missions?

A If no user completes all missions, the raffle will have no eligible participants and no winners will be drawn. The campaign will close with zero winners.

Q Can I delete a campaign after it is live?

A Campaigns cannot be deleted once Active. You can close a campaign early by changing its status to Closed from the campaign management page.

Q What languages is pickku available in?

A pickku currently supports English, Korean (한국어), and Portuguese (Português). Use the language switcher in the top navigation bar to change the language.
